PROFILE

Full-Stack Software Engineer with 5+ years of experience building high-performance web applications using **Vue, React, and NestJS**. Proven expertise in architecting secure backend systems with **JWT authentication** and **Elasticsearch** optimization. Experienced in leading frontend architecture and mentoring junior developers in Agile environments.

PROFESSIONAL EXPERIENCE

- JobMatch Technologies** 2025 | İstanbul, Türkiye
Full Stack Engineer ✍
 - Architected scalable backend services using **NestJS** and **Prisma**, implementing **JWT-based authentication** and **Rate Limiting** to secure AI-powered workflows.
 - Improved search response speed on large datasets by integrating **Elasticsearch** across the stack, optimizing user experience for job-matching filters.
 - Delivered production-ready features in an **Agile Scrum** team, maintaining high code quality through **Jest** unit testing and cross-functional collaboration.
- Ayhanlar Holding** 2024 | İstanbul, Türkiye
Frontend Lead ✍
 - **Spearheaded the Frontend Architecture** for MoneyMatch, a secure banking concept, using **Vue/Nuxt** and **Pinia** for state management.
 - **Technical Mentor:** Supervised and code-reviewed a team of interns, ensuring adherence to coding standards and UI/UX responsiveness goals.
 - Optimized frontend rendering performance, achieving sub-2-second load times for complex financial dashboards.
- Hasel** 2022 | İstanbul, Türkiye
Software Engineer ✍
 - Developed an automated email outreach and tracking system (**Donnate** ✍) using **Vue.js** and **JavaScript**, streamlining data management for charity partnerships.
 - Improved interface accessibility and user engagement by 20% through responsive design and **SCSS** optimization.

SKILLS

- | | | |
|---|--|---|
| Frontend: Vue.js (Nuxt), React.js, Pinia, Redux, Tailwind CSS, Three.js, SCSS. | Backend: NestJS, Node.js, Express, GraphQL, RESTful APIs, Prisma ORM. | Security & DevOps: JWT Auth, Rate Limiting, Docker, GitHub Actions, Git. |
| Databases: PostgreSQL, SQL, Elasticsearch | Bonus Tech: LangChain (AI/RAG), TensorFlow, Python. | |

PROFESSIONAL CERTIFICATES

Meta Front-End Developer Professional Certificate ✍
Gained practical experience building responsive web applications using HTML, CSS, JavaScript, and React. Covered modern front-end development practices, version control with Git, and UI/UX fundamentals.

PROJECTS

- Quizly** ✍ 2024
AI quiz-generation SaaS
 - Built a personalized quiz generator using **NestJS, TypeScript, and LangChain (RAG)**, optimizing backend performance with indexing for a **10% speed boost**. Enhanced reliability by implementing automated tests with **Cypress** and **Jest**.
- Landclub** ✍ 2023
Real estate e-commerce
 - Developed an e-commerce system with **Vue.js** and **Node.js**, improving property listing workflows by 25% and achieving a 97% Lighthouse performance score for a real estate firm.

EDUCATION

Bachelor's Degree in Computer Engineering

2018 – 2024 | Istanbul, Türkiye

Doğuş University [🔗](#)

- Completed a Computer Engineering degree with a focus on software development, machine learning, algorithms, and information systems.
